Retiree News

Dear Fellow Retiree:

By the time you receive this newsletter, you either should have received or soon will receive the promised communication from the company which explains and clarifies the earlier Bankruptcy COBRA notice and answers a number of questions that have been asked about the Retiree Medical Plan. Before that, you should have received by e-mail or regular mail my June 23 message. These two communications – the company's and mine – are the latest word, so I won't go into detail on either of them. But I do want to touch on them and a couple of other subjects in this message.

First, the deadline for electing whether or not to choose Bankruptcy COBRA has been extended to August 31, 2002.

Second, the bankruptcy judge has recognized the Retirees' Committee as the Official Retirees' Committee.

Third, if you have not already read the above-mentioned most recent communication from the company on COBRA and the Retiree Medical Plan very carefully, please do so and call the company at 925/242-4465 if you have any questions.

Remember, although we are regularly-mailing messages of key importance to all retirees/surviving spouses who don't use e-mail and although we have a money-saving, non-profit bulk mailing permit, these postage expenses are significant. So, if you are not already receiving our messages by e-mail and would like to receive them that way, please let us know. Also, for those of you on e-mail, please continue to help us in our efforts at timely communication by sharing the communications you receive from us with any retirees or surviving spouses you know who do not use e-mail.

Now, a couple of new subjects:

KASRA Board: Enclosed with this newsletter are biographies of members who have been nominated to serve as directors of KASRA and a ballot for your use in voting.

The five nominees are: Dick Kauffman, Alan Longmuir, Ron Radakovich, Steve Ringwood, and Jim Sparkman. They are standing for election to three-year terms. Upon election, they will succeed Jim Glann, Dick Lemyre, Tim Preece, and Bruce Wilson, who are term-limited, and Charlie Alongi, who resigned due to the recent illness of his wife, Dean. Each of our outgoing directors has contributed greatly to the strength of KASRA. Each has volunteered countless hours of time and expertise in an effort to preserve and protect the interests of retirees and surviving spouses. I know you join me in thanking them for their dedicated service. And, the good news is that each of them has promised to continue to lend advice and counsel to our efforts as needed. Thanks, too, to the five retirees who have agreed to stand for election. **It is important that you vote. So, please complete your ballot and mail it back to us as soon as possible, but no later than July 31.**

Kaiser Aluminum Website: We encourage all of you who have access to the Internet to check out Kaiser Aluminum's website for the latest company news. The address is: www.kaiseral.com. On June 21, the company placed on this website the first of what it says will be a series of regular monthly updates. This first one includes the latest information on the restructuring, news about the business, and background information on various issues facing the company. If you don't have Internet access, the company invites phone calls to its toll-free restructuring hotline (1-888/829-3340).

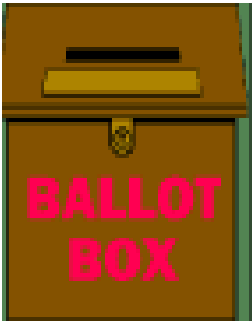

We will continue to keep you informed on a timely basis.

Sincerely,

A handwritten signature in black ink that reads "Jed Daniel".

The Birth of KASRA

Fifteen years ago, the first issue of KACC Retiree News was published as an adjunct activity of the retiree luncheon club. Back then, the organization was run by a steering committee composed of Dick Blake, Tom Bowdle, John Cashel, Klaus Fels, Lou Harmon, Dick Harrison, Beverly Heath, Betty Perez and Milt Siemers. There were no dues, no elected officers and no advocacy. However, a paragraph in the first newsletter stated:

“If we should ever decide that we wanted to take some action as a group, then the skeleton of an organization is in place... we have an established mailing list and newsletter and could be in business very quickly.”

That organization, KASRA, is very much in place today, actively involved in issues impacting all Kaiser Aluminum salaried retirees. Meanwhile, the luncheon group functions in the Bay Area as a separate organization, Kaiser Aluminum Retirees Luncheon Association (KARLA), and through various luncheon clubs located in KACC plant cities across the U.S. Oh, and as for KACC Retiree News? It has evolved into this publication, KASRA Retiree News, ever ready to serve as your vehicle of communication and information for retirees.
