A MESSAGE FROM KASRA PRESIDENT

Dear Fellow Retiree/Surviving Spouse

The response to our annual drive for membership renewal was excellent. A large number of you have returned the “What’s Going On” form advising us of activities during your retirement and semi-retirement years. Some of these will find their way into our newsletter or, if too numerous to be accommodated there, possibly onto our website.

As previously indicated, the annual drive in July is our attempt to reach out to all our salaried retirees. I use this term “retirees” loosely as some of our members are still working full-time elsewhere and others, though now retired, did not retire directly from Kaiser. Although the majority of KASRA members are eligible for VEBA benefits, there are some who do not qualify but still remain members of KASRA. Our Bylaws, under Article 4.1.1, clearly state that any person who is a former salaried employee of the company or who is a spouse or other dependent of a disabled or deceased former salaried employee of the company is eligible for KASRA membership. We have only one class of member and one can belong by simply paying our current annual dues of \$10. Stated simply, KASRA is essentially a salaried alumni organization, regardless of time spent at Kaiser.

Some of the advantages of membership are the opportunity it affords to communicate with each other; being informed periodically about our remaining benefits; learning about the activities of fellow alumni; and enjoying each other’s company at the various “lunch bunch” functions across the country. In regard to the latter, more pictures of these gatherings are requested and welcomed for the newsletter and website. Currently, photos of the Bay

Area, Chalmette, Mead, Ravenswood and Tacoma are posted on our KASRA website (www.e-kasra.com). We welcome pictures from other areas.

In the previous issue, I mentioned some of the people who are involved in the newsletter. I would be remiss if I did not also acknowledge some of the other team members who work with **Chris Laszcz-Davis**, our Newsletter Editor, in putting together a terrific product for your reading enjoyment. **Roberta Wong** and her spouse **Mark Murray** are responsible for gathering the data and putting together the “Profile” and “What’s Going On” portions. They encourage more of you to keep sending in pictures of your vacations and other activities. **Steve Abernathy** (our Webmaster) coordinates the “Lunch Bunch” information and also needs your help in getting the information to him on a timely basis. He also answers all your emails. **Joanne Cunningham** pieces together the “In Memoriam” section, after deaths reported to us are properly verified and confirmed. **Michelle Alviso** and **Don Usvathongkul of A-Mailing and Printing** create the design and layout to fit it all in, print and mail out the hard copies. **Sharon Fraetis** has the important task of updating and maintaining our massive database to ensure the newsletters find their way to us and that dues collected are properly recorded. **Joanne Gutierrez** handles all incoming correspondence and telephone calls to our dedicated phone line. She ensures all incoming communications are forwarded to the proper channels for disposition. And finally, **Bill Alsup** gets the newsletter out electronically.

Just another friendly reminder on filing for your VEBA reimbursement. Please make sure you submit your claim up to a maximum of \$2000 for 2008 no later than December 31, 2009. Your claim for 2008 will not be honored after that date.

WHAT'S GOING ON

Angel & Gypsy

Little lambs...CFT retiree **Dennis Przybycien** (Sonoma, CA) sent this photo (pictured left) of Angel and Gypsy, 24-inch tall Old English Baby Doll sheep. Their mini stature allows them to graze the tall grass at his vineyard ranch without damaging vines. She's writing, directing and performing in her retirement community's musical show this month. The Manhattan Project built the trigger mechanism for the first atomic bombs used in the nuclear attacks on Hiroshima and Nagasaki, Japan. Trentwood retiree **Elizabeth Lynch** of Otis Orchards, WA, visited her daughter's family in Seattle, attending her granddaughter's choir concert and grandson's Little League game.

What is your year? Wanatah, IN, retiree **William Weyer** of Richmond, TX, has issued a challenge to all KASRA members – can you beat his claim at being the oldest living retiree with the earliest start date? Walter, who turns 84 this month, began his Kaiser employment at Trentwood, WA, on July 8, 1946 and had assignments at Ravenswood, WV, Belpre, OH, as well as in Germany, Japan and Australia. To best Walter's claim, please send editor details of your date-of-hire as well as your age, both of which must pre-date Weyer.

It's not much to look at, but Charles says they do the trick in dry season. President, KASRA

MEMBER PROFILE: Lee Corder

In 1965 Lee Corder and his wife, Sue Ann, moved from Salem, WV to Ravenswood to begin their lives as newlywed schoolteachers. Three years later, Lee left teaching and joined Kaiser Aluminum's Ravenswood Works as an inspection clerk in production control. He spent his entire 34-year career in the aluminum industry there, although not all that time under Kaiser ownership. In 1989, after 21 years with Kaiser, Lee found himself working for newly formed Ravenswood Aluminum and continued to work there until 1996 when the plant was sold to Century Aluminum. He continued at Century until its 1999 acquisition by Pechiney SA. Lee officially retired in 2002, one year before Pechiney was acquired by Alcan (Rio Tinto 2007). He and Sue Ann still reside in Ravenswood in the same home they've had for more than 40 years. He serves as President of the Ravenswood Retirees Association.

Q, What was the most memorable experience you had while working for Kaiser?

A. I recall a couple of challenging and rewarding projects. The first was learning to make can stock and supplying Kaiser's three can plants, as well as major companies like National Can, Ball Metal and Coors. The other experience was called the Kawasaki Project, an

Sue Ann & Lee Corder

LNG (liquefied natural gas) program.

The corporation had a contract to make an e-ring to put around LNG tanks. At first it was a partial contract, but when the original contractor dropped out of the project, Kaiser ended up making the whole tank as well as the e-ring.

Q. You've worked at the same plant over the course of your entire career in the aluminum industry, while Ravenswood has undergone several ownership changes. How would you characterize your Kaiser Aluminum experience?

A. West Virginians consider Ravenswood to be Kaiser's flagship plant, and I dearly loved working for such a great company and for such knowledgeable, sharp and sincere people at Kaiser. We worked hard and we played hard, socialized like we were family at spring cookouts, steak fry get togethers and office Christmas parties.

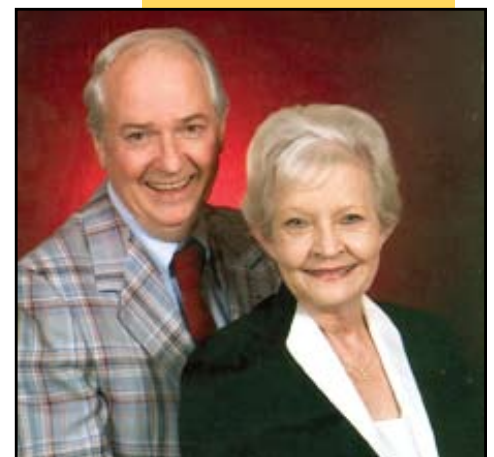

Q. Describe your KASRA involvement.

A. My local involvement with KASRA retirees is conducted through the Ravenswood Retirees Association. I've served two terms as its president. We have 96 members who all are KASRA members. We sponsor four social events a year – a spring lunch, a summer picnic, a fall lunch and a winter dinner dance.

(Member Profile, from Page 5)

Q. What are your hobbies?

A. When Sue Ann and I were dating in college, we loved going to a place called *The Green Parrot*, where we'd hit the dance floor doing the jitterbug and wouldn't stop dancing until they kicked us out. Today, we're still dancing in our black and white saddle oxford shoes and letter sweaters. We've won dance contests in Parkersburg and the Charleston Regatta. We enjoy taking our restored 1965 Mustang on road shows. It was our very first car that we bought for \$2300. We've invested ten times that amount to restore it and "it's a beauty". We're Mountaineer fans, too!

Sue Ann & Lee Corder

celebrated our 44th anniversary August 8. We have two sons and four grandchildren.

Q. Tell us about your family.

A. My wife, Sue Ann, is the light of my life! We met at Salem College and

Our oldest son, Joe, is a foreman in the casting department at Ravenswood and he has two sons, Tom, 18 and Colt who is 9. Our son Jeff is a stockbroker with Morgan Stanley in Silverdale, WA and he has two girls, Molly 6 and Sally, who is 3.

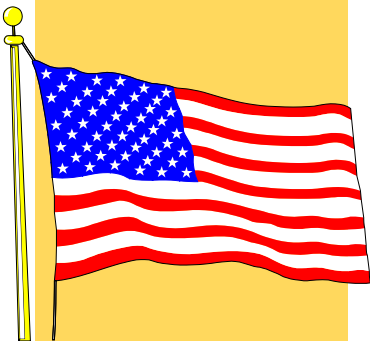

VETERANS PENSION BENEFIT FOR ASSISTED LIVING

Cleveland wire and cable retiree **Clarence Smith** of Medina, OH, called KASRA recently to share information about a benefit program available to veterans. Disabled or qualified older veterans and their surviving spouses may be eligible for a VA "Aid and Attendance" disability pension benefit to subsidize caregiver or assisted living expenses.

Smith was made aware of the program during his own research on assisted living facilities in his area. "I was diagnosed with diabetes a few months ago, and wanted to look into assisted living," he says. The 81-year old found the Camelot, a local facility that told him about the VA benefit and which also provides an ombudsman to help prospective qualified residents through the VA application process. According to Smith, income and assets must be limited to determine eligibility. "If I qualify, I could get \$1644 a month in assisted

living subsidy," Smith said. He suggests that interested veterans or their surviving spouses enlist the help of a relative to be their advocate. "Or call around to find a local facility with an ombudsman," he added.

The "Aid and Attendance" disability benefit is associated with VA Pension Income. It is separate and distinct from the VA's service-connected disability benefit administered as Compensation Income. For clarification and eligibility requirements, please contact your local VA office. Or, call VA National toll free at (800) 827-1000. Click www.va.gov to visit the VA website. For those who surf the internet, please note that certain web sites which promote this benefit may be private financial firms not associated with the government or with the VA. These firms charge fees for application services. Be sure to read the fine print and disclaimers.
