Do you know a retiree who has not signed up for the VEBA? Suggest they call KASRA at (925) 685-1313 or email at kasra@e-kasra.com

Dear Fellow Retiree/Surviving Spouse:

Recently, I received an inspiring letter from one of our AgChem retirees, **Evelyn B. Barker** of Ashburn, Georgia, who had just recovered from a replacement of both knees.

With her permission, I wish to share part of her letter with you.

“Dear Sir, I hesitate to write to KASRA News as I am from a small town and I feel like you are so much far ahead of me but yet I feel very much a part of you because I had the privilege of working for Kaiser of Ashburn, Georgia. I had several jobs in my lifetime but I have never worked for a finer group of people – I was Office Manager and at our location we sold fertilizer and everything the farmers needed to grow crops.... I loved every minute of it. Hard work it surely was but I retired to go to Atlanta to look after my only child (husband got killed in a truck accident). My son at age 41 was diagnosed with kidney cancer and God called him home. I returned to Ashburn and went to work for a local bank ... I told them how bad the town and surrounding counties needed a “Senior Citizens Club” and the bank became the sponsor of my “Prime Timers”. My work is as a volunteer and I have been doing it now for twenty years, still going strong and I get a great pleasure helping the senior citizens get some pleasure out of life. Helping them focus on the high side of life – and it is truly rough for all of us now!! I wish to write a few words for the KASRA News and I truly enjoy reading it.”

We thank you Evelyn for writing and sharing your inspiring story with us. It is folks like yourself that made Kaiser the family it was for all of us! It is folks like yourself who continue to make a difference in the communities wherever life takes you!

This brings me to my next point—updated contact information. One of our newsletter goals is to make sure that all salaried retirees and their surviving spouses have

the opportunity to share news about fellow retirees, their surviving spouses and families. In addition, we have the opportunity to update our retirees about VEBA, COBRA and other retirement matters. In order to continue to reach all of our retirees, we need to update the regular and e-mail addresses in our database. Periodically, we send out emails to the various regions requesting their help in locating those who have moved and not notified us of their address change. We are grateful to **Chuck Schimmel** from Chalmette, Louisiana, who kindly volunteered to take this list of retirees from his region to the retiree luncheon in the hope that others present could help find these missing addresses. **Ken Johnson** from Mead, WA, has offered to do the same, as has **Dave Whitman** from Ravenswood, WV. We hope other regions will step forward and do likewise.

Pictures, pictures and more pictures of your activities are greatly appreciated. We all LOVE seeing them! So please take pictures with your digital cameras at your retiree functions and vacations and send them to us.

This is our last friendly reminder to file your 2008 VEBA claim for reimbursement before December 31, 2009. If you do not file for reimbursement before this date, you stand to lose your reimbursement claim for up to \$2,000. You have until December 31, 2010 to file your \$1750 claim for 2009 – why wait till then? For your information, we have 3,880 family units enrolled in the VEBA plan, which represents a remarkable 93% participation. We also have 141 family units still on the bankruptcy COBRA medical insurance plan.

Until our next newsletter, please continue to keep us informed so that we can continue to keep you informed. “A World of Good Wishes to All!”

MEMBERS PROFILE: Oldest KASRA Retiree

We received a number of responses to the challenge posed by member **William Weyer** – are you the oldest KASRA retiree? Six of you undeniably made the cut because both your date of birth and date of hire preceded Weyer. We also included an honorable mention. Here are the winners along with photos, then and now. Congratulations!

Anne Ferreira, 95, (Walnut Creek, CA) began working at the Henry J. Kaiser Co. in Oakland in 1939 as a secretary to H.V. “Lindy” Lindbergh. Anne transferred to Permanente

Metals in 1941 which ultimately became Kaiser Aluminum. Her last assignment was working for **Dick Spees** in the Public Affairs department when she retired at 69 years old. Anne worked for seven more years providing vacation relief for the company’s administrative secretaries through a temp agency.

Don Angell, 91, (Sand Point, ID) was hired June 1, 1946 and his twin brother, **Rob Angell** of Walnut Creek, CA, began July 1, 1946, both at Permanente Metals which was renamed Trentwood.

Don and Rob are engineering graduates from the University of Idaho. “When we started at Trentwood,” writes Don, “Rob worked down in the mill and I worked in the office building. One of the engineers who worked with me went down to the mill and saw Rob, thinking it was me. Came up to the office and there I was. He repeated the trip later, saw Rob and hurried back to the office, and there I was. Finally someone told him there was no short cut, we were twins. He wasn’t the only one confused. I waved at a mirror once, thinking it was Rob.” The

Angell twins turn 92 on November 19.

Stuart Lovelace, 90, (Oakland, CA) joined the Todd California Division of The Permanente Metals Corporation, known as the Kaiser Richmond Shipyard No. 1 in May, 1941. He transferred to Kaiser Company's Richmond Shipyard No. 3 where he worked as an electrical engineer until he entered military service in 1944. He resumed employment at Kaiser Aluminum in 1955, finding that many of his shipyard associates were still working the company with the "We Can Do Anything" spirit.

Stu Lovelace NOW

Cliff Rolie THEN

Clifford Rolie, 90, (Spokane, WA) began his 33-year career with Kaiser Aluminum at Mead, WA, in 1942 just after the corporation had purchased the plant from Alcoa. He went on to help start plants in Chalmette, LA, Renukoot, U.P. India, Valco in Tema, Ghana and Holyhead, North Wales. Kaiser was the best thing that happened to me, writes Cliff. "A great company to work for," he added.

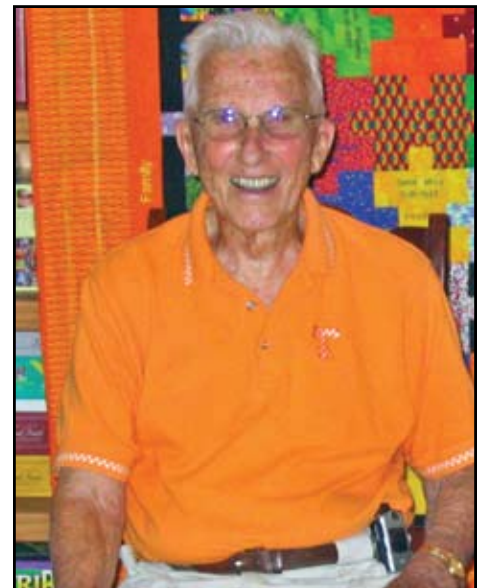

Cliff Rolie NOW

Len McAdams THEN

Len McAdams, 88, of Sante Fe, NM, began his career at the Permanente Metals plant in Mountain View, CA, on May 29, 1942. Mac was hired over the telephone while he was still finishing engineering school at the University of Tennessee. The company sent him a first class Pullman train ticket from Knoxville, TN, to San Jose, CA – quite a trip for a country boy who had not been farther from his home state than Mississippi. He worked in management jobs at Mead, Chalmette, Tacoma, Baton Rouge, QAL Australia, Ravenswood and

William Weyer, 84, of Richmond, TX, began employment at Trentwood on July, 8, 1946. His assignments included stints at Ravenswood, WV, Belpre, OH, as well as overseas assignments in Germany, Japan and Australia. Weyer's last assignment before retirement was at Wanath, IN.

W. Weyer NOW

D. Watts THEN

And last but not least, an honorable mention goes to **DuWayne C. Watts**, 82, Spokane, WA, who began at Trentwood on June 26, 1945 as a laborer and retired as a general supervisor after 36 years with the company. DuWayne still remembers his employee badge number, No. 295, and besides, he was also Bill Weyer's classmate at Gonzaga High School.
